“We have a great passion for living things and sharing them with others. Creature Encounters allows us to live our passions, and share that passion with the world.” - Cary Drage

Creature Encounters main goal is to help educate others. We can bring our many Creatures to “Encounters” such as birthday parties, church functions, office gatherings, school assemblies, scouting events, fairs, carnivals, family reunions or any other gathering that would like a see and learn about our creatures. Our encounters include facts about our creatures and their specific needs. Our encounters can be very hands-on. We have been presenting these types of encounters to all kinds of groups for 26 years. We know that any type of group from “s birthday parties to business conventions with hundreds in attendance will have the encounter of their lives.

We have a great variety of birds, reptiles, insects, arachnids and small animals to share with your group. Our “creatures” are our pets and are very well cared for and loved. They are an important part of our lives and we are looking forward to sharing them with you and others.

We are also excited to introduce another exciting service called Creature Care. This service offers pet care in your home while you are out of town. Whether your pet has fins, feathers, fur or scales, our experts can care for them in the comfort of the pets own home.
